Sorghum Factory.

Mr. S. H. Whitmer wishes to inform his cane-growing customers that he is now prepared to manufacture sorghum molasses.

The best time to harvest the several varieties of cane, according to his experience and the experience of the Ohio agriculturists, is as follows: Do not harvest the black sorghum before the seed is in a due state of maturity, and while the golden and white canes can be harvested when the seed is in a milky state. It should be cut as soon as it is bladed. Secure a saw-knife and lay on enough to cut in a bundle. You can cut with cane blades or foxtail grass. I have rye straw which is the best. 10w1.

Our County Maps.

Messrs. Drink, Mc Donough & Co. are pushing the canvass ahead for the new county maps as fast as possible, to see if the citizens of Holt county, will encourage the work sufficiently to justify them in the publication. As there has never been a Map of Holt county published, showing the sub-divisions of the lands, with the owners name thereon, locating the county roads, railroads, streams, residences, etc. Since the county has become thickly settled, and a large portion of the lands are under a high state of cultivation, a Sectional Map has become an absolute necessity. It is to the interest of all classes that this enterprise should be a success to the land holders, who should know who and who are not paying taxes, as well as to the business portion of the community and county officials, the latter of whom without the aid of a Map of this kind, labor under many disadvantages and errors, while faithfully performing the duties of their offices. We must say that it is the duty of the citizens of this county to encourage this work by their subscriptions in sufficient quantity to insure its success.

That Iron Heater
Is emphatically the ladies' friend and the most economical and convenient invention now in use. It needs but one trial to assure any one of this fact. It possesses the following advantages: Economy in fuel, economy in time, economy in number of irons. Only two irons are required to do all the work. The handles are not covered, consequently do not get hot. Only requires four minutes to heat a cold iron. After once in use it will heat an iron every two minutes.

All we ask is a fair trial of the Heater, and if it fails to give satisfaction it may be returned. For sale by Joseph Martin, Jr., at D. M. Martin's Harness and Saddlery establishment, northside Public Square, Oregon, Mo. 10w1.

DEATH OF MRS. WOLF.

Died, at the residence of her mother in Forest City, Mo., Sept. 10, 1876, of conjection of the lungs, **GRIZZELLE LOCKRIDGE**, wife of George Wolf, after a painful illness of nine days.

She was born in Bethel, Bath county, Kentucky, March 18th, 1850. In 1862, she with her parents moved to Missouri, and settled in Oregon, Holt county, where she grew up to womanhood, and was highly respected for her many good qualities of head and heart by all who enjoyed her acquaintance.

Though young in years, Mrs. Wolf had more than her share of the perplexities of this life. In 1869 she was married to George Wolf, whose character and history and subsequent misfortune is well known to most of our readers. A short time before her death she received intelligence that George Wolf had died of consumption at Milton, Santa Rosa county, Florida.

Mrs. Wolf's remains were buried at the Oregon cemetery, with the full honors of the Christian Church, in whose pale she died. Elder Wm. A. Gardner preached her funeral.

The Classic Nodaway.

The excessive rains of late upon the upper waters of the Nodaway river, have raised that stream higher than it has been this season, and is, as we learn, doing considerable damage to the farms upon its banks. When the waters first began to raise about a week since, a part of the tall race was carried away at the Fillmore Mills, and in consequence, the mill cannot run, and cannot be fixed until the waters go down, which will be attended to as soon as possible, that its customers may again receive the benefits of its accommodating miller, Mr. Ames.

We regret the occurrence, but occurrences of that kind are beyond our control. September 15th, the river was four feet higher than it was even known to be. We wish our Iowa friends would hold their water, we have enough of our own at the present writing.

Withdrawal.

Capt. Albert Becker, Republican nominee for State Senator in this district, has declined. His letter of declination is in the hands of the Senatorial committee, and the committee will soon meet and endeavor to designate a successor.
